

Andrew Lindley

Fort Collins, CO · (919) 491-7022

dlindley4@gmail.com

SUMMARY

Versatile Full-stack Developer with 3+ years of experience designing, developing, and maintaining complex spatial applications and internal data management tools. Builds front-to-back systems including databases, APIs and reactive client-side applications. Specializes in Vue, Node, responsive design and Agile development.

EDUCATION

University of British Columbia

BA Geography: Environment and Sustainability

Aug '09 – May '14

Front Range Community College

Advanced GIS Certification

Aug '16 – May '17

EXPERIENCE

Bright Rain Solutions, Full-stack Developer

May '17 – Jun '20

- Lead development on enterprise-level applications
 - Design and develop application layout and tools critical to client operations
 - Design and develop internal dashboard to give client better access to their data
 - Write detailed documentation
 - Test, stage, and deploy application to production
- Design and deploy reactive responsive front-end applications with intuitive UI/UX
 - Create dynamic applications that manage user security
- Build CRUD APIs that securely manage users and communication with the database
 - Implement custom user authentication with encrypted credentials
- Design data structures and create databases
- Communicate directly with clients to incorporate feedback and plan future milestones
- Work with a small team to complete deliverables on time
- Engage with prospective clients to procure new contracts

Projects

MapOurBorders.com

- A crowd-sourced community map that allows people to sign up and draw/name spaces
- Built at Bright Rain Solutions with Vue, Node, Postgres, Leaflet, and h3

CSUTrees.org

- A simple web map that shows the location and some popup info of all the managed trees on Colorado State University's campus
- Built at Bright Rain Solutions in conjunction with the Geospatial Centroid at CSU using Node, OpenLayers, Postgres and Tegola vector-tiles as part of their Open-Geo initiative

LindleyResume.com

- An online version of my resume that links to its own github repo
- Built with Vue, Webpack, and deployed to a Digital Ocean server

Community Involvement

10 Minute 3D Web Map - Northern Colorado Geo-meetup

Mar '17

- Delivered a talk and demonstration of how to create a simple 3D map in the browser
- Created materials to serve as a reference for students or beginners
 - codepen.io/alindley17/pen/VXbLLe
